No items have been added yet! Related Collections. Comentarios y referencias. Added 2/13/2017. Related links:. I have no idea what your problem is and why you don't have a licence. It's unlikely that you'd be able to secure one anywhere else. But even if you did, you can't download here. As for your images, you have to remove "package.txt" and post the rest of your images with the extension removed. Don't just post the name. The present invention relates to a novel ingredient for cosmetics and emulsion cosmetic preparations, which can impart a skin-tonic effect and a revitalizing effect on the skin in a very short period of time, and which does not change the feeling or color of the skin as a result of topical use thereof. It is generally said that a skin-tonic effect is obtained by drugs or cosmetics which can heal erythema and promote the functions of the skin. Some skin-tonic effects, such as tanning effects, may be expected by the cosmetics generally used. On the other hand, the vitamin K.sub.2 or panthenol-containing cosmetic preparations usually used in the cosmetics for skin-tonic effects are associated with a variety of side effects such as a stimulation of skin secretion, necrosis of skin, skin eruption, skin pigmentation, etc. Recently, there have been observed a number of cases in which women who use oil-in-water type emulsion cosmetics are afflicted with a serious dermatitis. In the treatment of such serious dermatitis, the objective is to prevent aggravation of the condition. Therefore, it is desirable that such emulsion cosmetics should be produced without causing any side effect in the skin. Generally, there is hardly a contradiction between such skin-tonic effect and the feeling and color of the skin. Nevertheless, for example, cosmetics for skin-tonic effects produced by adding a water-soluble vitamin to emulsion compositions to impart a fresh feeling, have a problem in that their feeling or color of the skin changes upon absorbing water. While there is known a method in which a water-soluble vitamin is added to emulsion f678ea9f9e
